LOCAL CONTROLLER

The new remote software running on a Tablet PC offers a variety of extra functions for the SPORTS:CAM5 HD as well as for the brand new QUBE:CAM. If used as a Comm-Cam, this tablet controller allows the commentator to operate the camera by himself. A live picture of the camera makes sure, that the picture gets perfect.

RCP2 REMOTE CONTROL PANEL

The Universal RCP has proven itself over the years and is available for the following camera types: QUBE:CAM , SPORTS:CAM 5HD, HD:1200, Sony DXC-D30/D35, Toshiba IK-HD1, Hitachi KP-D8, HV-D30, Panasonic AK-HC1500, further types on request. The new bracket lets the RCP fit seamlessly into the standard RCP/OCP slot of every OB-Van.
